

# THE MAITRE D'

Looking for a new way to have students share information with each other? Give this one a try...

Small groups share about an experience, project, investigation or any other aspects of learning by utilizing the Maitre D' Protocol.

## **DIRECTIONS:**

### **Table for Two:**

Students find someone that they have not talked with a lot in the room and discuss their reflection or thoughts on a posed question from the facilitator. After a few minutes of sharing from both students, the facilitator proceeds to the next step.

### **Table for Four:**

Together with your partner, find another pair and discuss what your biggest questions or worries currently are with the project, investigation or any other posed question/issue.

**Afterward, discuss as a group.**
